Education

Grand Canyon University — Phoenix, AZ
B.S. Computer Science in Data Analytics; Minor in AI and Machine Learning — *Jan. 2024 – Present*

Pikes Peak State College — Colorado Springs, CO
Associate of Science in Computer Science — *Jan. 2023 – Dec. 2023*

Experience

Canyon AI Research (CAIR) Research Intern — Jan. 2024 – Present
Grand Canyon University — *Phoenix, AZ*

- CAIR research team developing an Object Detection AI model to detect hand gestures
- Working with teammates to run a Yolov4 object detection model
- Micro-controller modules will be placed around college campus and will take student feedback in the form of hand gestures to gather student satisfaction rate
- Quality assurance and coding standards are in place to ensure congruency in product development
- Tasks include keeping our website up to date, documentation of research, weekly meetings, training/testing an AI model using collected data, and monthly meetings with the Canyon AI Research Organization

Customer Support Technician — Feb. 2024 – Sep. 2024
Grand Canyon University — *Phoenix, AZ*

- Call center for Grand Canyon University Technical Support
- Quality assurance guidelines/weekly meetings with management to guide call structures and documentation procedures
- Tasks included assisting callers with technical issues such as information requests, assignment submissions, Microsoft Office installs/uninstalls, password resets, etc. over the phone and zoom meetings

Customer Service Associate — May 2022 – Dec. 2023
Walgreens — *Colorado Springs, CO*

- Worked Point of Sale, Photo Center, and Stockroom
- Was offered shift lead position
- Tasks included running the cash register, processing returns and refunds, taking passport pictures, processing photos, stocking shelves, changing out sales tags, and cleaning/maintaining the storefront

Projects

Carnivore Corner Shopping Website | *Git, HTML, CSS, JS, SQL* — December 2025 – Present

- Developing an ecommerce website to promote a local carnivorous plant distributor
- Utilizing SQL for backend, currently looking into options for deployment

Object Detection ML Model | *Git, Python, C* — September 2024 – Present

- Developing an AI Object Detection Model to be implemented on GCU's campus (managed by CAIR)
- Micro-controller modules housing AI will be placed at various locations on the GCU campus as a way to gather student feedback
- Object Detection ML Model Implementing Edge Impulse, RoboFlow, and YOLOv4
- Documenting project progress/research; Maintaining website with project updates
- Presented findings at the Canyon Undergraduate Research Symposium

Real Estate Web Scraper | *Git, Python* — June 2025 – July 2025

- Developing an AI Web Scraper in Python to gather real estate data
- Uses a virtual web browser to bypass CAPTCHA verification
- Implementation of Ollama LLM to parse through relevant real estate content

Technical Skills

Languages: Java, Python, C++, SQL, C Sharp, HTML, CSS, JavaScript
Tools: ZenDesk, Cisco Finesse/Jabber, Git, Google/Microsoft Cloud Platform, Streamlit, Tensorflow, PyTorch
